# Expertise, from those who truly understand kitchens.

## Premium, British-built kitchens, designed to last a lifetime.

Searching for a high-quality, beautifully designed kitchen for your dream home? At Kessler, we specialise in precision-engineered, hand-built kitchens that make a bold statement in a world of standardised choices, for clients who value incredible design, impeccable build quality and a lifetime guarantee.

In our pursuit of unparalleled quality, we have eschewed conventional partnerships with interior designers, opting instead to collaborate with experts who really know kitchens. Our brand ambassador, Laurence Henry, winner of Masterchef: The Professionals, provides invaluable insights into the optimal kitchen layouts and appliance configurations that best serve the culinary aspirations of our clients.

## Uniquely built, guaranteed to last a lifetime.

As specialists in the art of kitchen innovation, we understand what it takes to design, manufacture and hand build a luxury kitchen that will stand the test of time.

Our patented cabinet joint system, unique to Kessler kitchens, demonstrates our passion for perfection and innovative engineering. We call it Fortis, representing the strength of our kitchen cabinetry. Our Fortis joint supports every Kessler kitchen and offers unrivalled strength and rigidity.

It's one of the reasons we offer a lifetime guarantee on all our kitchens.

## Sustainable and British, at the heart.

We are committed to sustainability, minimising our environmental footprint wherever we can, from our ethically-minded supply chain through to our own production facility.

Your kitchen will be built using 100% British-sourced wood.

The cabinetry comprises wood from certified forests in the north of England, with a supply chain that is overseen by the Forest Stewardship Council® and the Programme for the Endorsement of Forest Certification Schemes (PEFC).

All harvested trees are replaced or allowed to regenerate naturally.

# Planning your project, from start to finish.

At Kessler, we understand our clients often engage in major renovations or new-build developments. Our designers navigate these processes with ease, working closely with architects and builders. We ensure your vision of a luxurious, tailored kitchen comes to life. Offering full project management, we handle every detail, from initial design to final touches, making the experience seamless and stress-free.

With Kessler, your dream kitchen becomes a reality, guided by experts every step of the way.

# Curating your dream kitchen...

## DESIGN & DECOR

## WORKTOPS & SURFACES

The quintessence of both function and form, worktops define your kitchen's character.

Choose from the elegance of natural stone or the resilience of composite materials. Each offers not only a distinct aesthetic but also ease of maintenance, ensuring lasting beauty and practicality.

## APPLIANCES & TECHNOLOGY

Transform your kitchen with the latest appliances and technologies that enhance and aid cooking.

Tailoring your kitchen's features to your culinary habits ensures a haven of efficiency and pleasure. Choose appliances that seamlessly blend into your lifestyle, meeting and elevating your kitchen experience for enhanced functionality and enjoyment.

# Style

---

## Modern

A sleek, contemporary look comes in two styles: true handleless, with elegant rails for a minimalist aesthetic, or contemporary doors with a choice of exquisite handles for a bespoke touch.

## Traditional

Traditional Shaker style doors exude classic elegance with smooth or grained finishes. Versatile and customisable, they can be painted in any colour, tailoring your kitchen to your preferences.

## In-Frame

In-frame kitchens represent the pinnacle of classic design and craftsmanship. Each door sits neatly within a solid frame, showcasing a refined and enduring style. This construction not only exudes elegance but also ensures lasting durability, making it a favoured choice for those seeking a timeless kitchen aesthetic.

# Behind the door

**Not like everybody else. We start where most stop.**

Your new kitchen should be beautiful on the inside, too. Built on our Fortis joint platform, Kessler cabinetry is made from 18mm MFC on all five sides and can be personalised with an enticing range of interior décor choices.

Be it a flat, complementary colour that pairs or contrasts perfectly with your doors or a bold step into tactile, elegant woods, stones and other feature finishes, our dedication lies in guiding you through each stage, turning your dream kitchen into reality.

**Full-size samples of décors are available at your nearest Kessler showroom.**
